

Enersense chosen as main contractor for Fingrid's project where capacitors are added into substations

Enersense International Plc
Investor news 12 April 2023 at 11.45 a.m.

Enersense International, a provider of zero-emission energy solutions, has won a project in Fingrid's public procurement tendering regarding adding capacitors into substations in order to improve transmission capacity.

The project will employ Enersense for approximately two years, and preparations for it will begin immediately. The value of the project is approximately EUR 6.6 million and it has been booked into Power business area's first quarter 2023 order book.

The decision shall enter into force after the end of the appeal period under the Act on Public Procurement and Concession Contracts.
