

# Enersense delivers its first high-power charging stations to Norway

Enersense International Plc  
Press release 16 June 2023 at 3:00 p.m.

Enersense Charging Oy, a manufacturer of high-power charging stations for electric vehicles, has signed its first contracts to deliver 160 kW high-power charging stations to Norway.

Enersense delivers four ECDC160kW high-power charging stations to Norwegian taxi company Agder Taxi for charging of taxis, e-vans, and e-buses. In addition, Enersense delivers one ECDC160kW charging station to Vennesla Taxi, which handles school transportation in Norway. Enersense's resale partner in Norway is Metering AS, and installation for both sites is carried out by local subcontractor TM Elektriske.

In addition to Norway, Enersense also delivers high-power charging solutions to many locations in Finland and Sweden during the summer. Enersense sees great potential in the Nordic charging market.

“Zero-emission transport is one of the focus areas of Enersense's growth strategy. There are many opportunities for us in the Nordic charging market, and we are delighted with how well our new high-power charger has been received,” says Topias Koskela, Head of Electric Vehicle Charging Solutions at Enersense.
