

## **Enersense to deliver charging equipment to the Tuuri department store and fast and high-power chargers to several partners**

Enersense International Plc  
Press release, 15 August 2023 at 11:00 am

Enersense Charging Oy, a manufacturer of fast and high-power charging equipment, will deliver ten pieces of 80 kW and 160 kW fast and high-power charging equipment and six lower-power DC chargers during 2023 to the Leppäkoski Group energy company, Lähilataus Oy and the Antti Simula & Co taxi service company.

Enersense has also entered into an agreement with Veljekset Keskinen Oy on the delivery of twenty 22 kW AC charging points to the Tuuri department store. The delivery includes the connection and commissioning of the equipment. Enersense is also responsible for the payment and management services for the charging points.

“These agreements are important openings for us in the domestic market. Enersense is able to provide various partners with turnkey solutions for high-power and lower-power charging,” says Topias Koskela, Head of Electric Vehicle Charging Solutions at Enersense.
