

## **Enersense to continue as Aidon's partner in Helen's district heating metering agreement**

Enersense International Plc  
Press release, 4 January 2024 at 10:50 a.m.

The Smart Industry business area of Enersense, a provider of zero-emission energy solutions, and Aidon have agreed to continue their cooperation in the implementation of the agreement on the provision of measurement and remote reading services for Helen's district heating and cooling. The new five-year agreement period will enter into force on 1 January 2024.

Enersense is responsible for the installation, service, repair and maintenance of Helen's measuring equipment covered by the agreement in the field. The agreement also includes storage services for meters, as well as maintenance, inspection and calibration in laboratory conditions.

"The renewed agreement will continue our long-term cooperation with Aidon (formerly Enerim) and Helen under the district heating metering service package. With the renewed agreement, Enersense will continue to be the most significant service provider in district heating metering services in the Helsinki metropolitan area. I would like to thank the parties involved in the agreement for their trust and the personnel of our district heating metering unit for their efforts to enable the agreement," says Jari Simola, Vice President, Smart Services.
